1) Incorporating ‘higher level of technologies into products’ = need for engineering brains!

2) Need people who can see the ‘big picture’ and help predict problems and create solutions for clients.

3) Need people who want to solve problems and not sit behind a desk all day long.

**Tuesday, April 24th**  **3:00-4:00 pm**  **Smith 269**

*If you cannot attend the entire time, that is fine.

- Open to all students especially ETCM majors (CIET, CMET, ELET and MEET) as well as Mechanical, Electrical, Systems for their various divisions!
- Full time & internships available!!
